

(U2L5-6R5) Our Modified Game

In small groups, invent a modified game that could be played at school, at home in the backyard or at the park.

Choose no more than four sports that all of you are interested in (e.g. basketball, soccer, etc)

1.
2.
3.
4.

From each sport choose the concept or skills that you would like to use in your modified game e.g. kicking from soccer or passing from basketball

.....

Work through and consider the following questions to help you make up your modified game. What is the aim of the game?

- How many players will be on a team?
- Will players have particular positions to play in?
- What will the playing size or space dimensions be?
- What type of surface will be used?
- What equipment will be used?
- What rules will you include to ensure the smooth running of the game?
- How will the game be scored?
- What safety issues do you need to consider?
- How will the game be inclusive of all participants?
