

# Be a Made

## Making Allergy Treatment Easier

- Print out the A4 template provided.  
**HINT:** Try printing them out on different coloured paper for a more dramatic effect.
- Fold the paper on the lines as indicated to create an accordion fold 46mm wide. The folded paper will make a paper chain of six linked shapes.
- Cut along the outline of the (boy) shape, so that you are cutting away all the shaded areas. Hold the folded paper firmly and repositioning with paper clips as required. Cut through all layers at once. **DO NOT CUT AROUND THE HANDS!** These will be your links for the chain.
- Now open up the folds to reveal your paper chain and lots of mates holding hands.
- For a longer chain, join several chains together end to end with invisible tape.
